

## 1. 甚麼是受規管託運商制度?

根據國際民航組織的保安標準，依照航空保安條例制訂的香港航空保安計劃內新增一項貨物保安規定。該規定要求航空公司只可運載由受規管託運商或已知託運人所付運或經保安管制的貨物、專遞及速遞包裹和郵件於客機上。在這制度下，合資格的貨物代理商，貨運公司或其他任何個體也可成為受規管託運商。

## 2. 甚麼是受規管託運商?

受規管託運商是指與航空公司有業務上往來、符合香港航空保安計劃的要求及已向民航處註冊之貨物代理商或任何個體。

## 3. 受規管託運商制度對付貨人有甚麼影響?

在這制度下，除由已知託運人付運之貨物或豁免貨物外，航空公司須對運載於客機上之貨物實施保安管制。

## 4. 我怎樣才可成為已知託運人?

受規管託運商及航空公司可依照下列程序把業務上有往來的客戶接納為已知託運人:

- 甲) 登記託運人及和他認可的運輸代理商的身份及聯絡地址。
- 乙) 要求該託運人簽署聲明或在其商業合約中聲明他所託運之貨物沒有藏有任何爆炸品或引爆裝置。
- 丙) 要求該託運人聲明他已盡其所能確保貨物在處理、儲存及運輸過程中不受非法

干擾，並同意他的貨物可因保安理由接受檢查。

如你想成為已知託運人，你可向你僱用的航空公司營運商申請，或向為你處理貨物並已註冊為受規管託運商的貨物代理商申請。你的申請被接納後，你將給予一個已知託運人編號，以供填寫在有關文件上作為識別。

## 5. 我如何知道我的貨物代理商是否受規管託運商?

你可向民航處查詢受規管託運商的名單。該名單亦會分派給所有航空公司、香港貨運業協會有限公司、香港國際速遞協會及香港付貨人委員會供託運人查閱。

## 6. 作為已知託運人，提交貨物時應做什麼?

你須確保你的貨物在處理、儲存及運送途中不受非法干擾。在提交貨物與你的受規管託運商或航空公司時，在付運文件上提供等同於報關所須的貨物種類和數量資料，並填上你的已知託運人編號以資識別。

## 7. 甚麼是豁免貨物?

有些貨物是不須經保安管制包括指定運載於貨機上的貨物、航空轉運貨物、遺體、動物、救援物資及厚度少於 6.3 毫米之貨物。詳情可向你的受規管託運商或航空公司查詢。

如有任何疑問，可致電 2182 1215 ; 2183 1248 或電郵 [apsd\\_gen@vol.net](mailto:apsd_gen@vol.net) 與民航處安全主任(保安)聯絡。

# Regulated Agent Regime 受規管託運商制度

## A guide to air cargo consignors 空運付貨人簡介

### **Q1. What is the Regulated Agent Regime?**

In line with a security standard of the International Civil Aviation Organization, the Hong Kong Aviation Security Programme which is enforceable under the Aviation Security Ordinance, has recently introduced a requirement to strengthen the security of air cargo. Under this requirement airlines can carry only consignments of cargo, courier and express parcels or mail on passenger flights from a Regulated Agent, a Known Consignor or consignments which have been subjected to other security controls. The Regulated Agent Regime is a system under which a cargo handling agent, freight forwarder or consignor of air cargo can be qualified as a Regulated Agent.

### **Q2. What is a Regulated Agent?**

A Regulated Agent is an agent, freight forwarder or any other entity which conducts business with an airline operator, meets the requirements of the Hong Kong Aviation Security Programme and has registered with the Civil Aviation Department.

### **Q3. How does the Regulated Agent Regime affect a consignor?**

Under the regime, a Regulated Agent or an airline operator is required to apply security control measures on consignments of air cargo received from shipper who is not a Known Consignor unless the goods are exempted cargo.

### **Q4. How can I become a Known Consignor?**

Under the regime, a Regulated Agent or an airline operator can recognize a consignor whom it has established business as Known Consignor by:

- a) Establishing and registering the identity and address of the consignor and the agent authorized to carry out deliveries on his behalf; and
- b) Requiring the consignor to sign or enter into the business contract a declaration declaring that the cargo consigned by him will not contain any explosive or incendiary device; and
- c) Requiring the consignor to declare that he has made his best endeavour to protect the consignments against unauthorized interference during preparation, storage, and transportation and agree that the packaging and contents of his consignments may be examined for security reasons.

If you have a business account with a cargo agent which is a Regulated Agent, you can request it to recognize you as a Known Consignor. If you send your cargo direct to the airlines and have a business account with them you can approach them for recognition. The Regulated Agent or airline which recognizes you will assign you a Known Consignor code for identification in the shipping documents.

### **Q5. How do I know whether my agent is a Regulated Agent?**

The Register of Regulated Agent is available at the Civil Aviation Department. The Department will provide a list of Regulated Agents to airlines, Hong Kong Association of Freight Forwarding Agents, Hong Kong International Courier Association and Hong Kong Shippers' Council for the consignors' reference.

### **Q6. If I become a Known Consignor, what should I do when I tender my cargo to the Regulated Agent or airline?**

You should ensure the security integrity of your cargo during preparation, storage and transportation until they are received by the Regulated Agent or airline. Your cargo should also be accompanied with shipping documents containing description of the contents and quantity of your cargo sufficient for customs clearance as well as your Known Consignor code for identification.

### **Q7. What is Exempted Cargo?**

Certain cargo is exempted from security controls. They include cargo designated to be carried on board cargo only aircraft, transshipment air cargo, human remains, live animals, bona fide life-saving materials and items less than 6.3mm thick. For details, check with your Regulated Agent or airline.
